## A distinctive blend for engaging spaces

Terrazzo flooring has infused depth of color and texture into interiors for centuries. Its small pieces of marble and colorful stones set in cement bring a vivid, artistic element that inspire a subtle feeling of splendor and elegance.

norament pado™ offers a modern take on this masterful design for contemporary and high function interiors. norament pado features a mosaic-like structure with a mix of color chips embedded in a modern, high performance material – rubber. Create a relaxed and engaging atmosphere with this contemporary application of a traditional technique.

# A rich variety of chip structures

norament pado tiles feature a variegated granular design inspired by ancient terrazzo with a slightly structured two-tone surface for maximum demands. Choose from an array of neutral and elegant or colorful and striking options to create a unique aesthetic.

## Installation Method

DIRECTIONAL

Welding is not required unless specified. View weld recommendations at [nora.com](http://nora.com).

# Unique design in every detail

norament pado is characterized by its distinctive design, featuring variegated granulate embedded in rubber flooring. Find new perspectives with this mix of three chip types:

- Marbled chips
- Single-color chips
- norament® grano™ chips

Coupled with norament's world-renowned resilience and durability, norament pado is perfect for entrance halls, exhibitions and other public spaces.

PRODUCT NORAMENT PADO COLOR 5502 CORAL INSTALLED DIRECTIONAL

The varied tones of the **marbled chips** create a unique level of visual depth that plays off the complexity of original terrazzo.

**norament grano chips** nod to classical terrazzo's use of scrap to create dynamic new visuals. These multi-toned norament grano fragments, ground from high-quality offcuts, add the classic scale and variation of terrazzo chips.\*

**Single-color chips** are the purest version of granular design and create visual harmony.

\*Included in 5 select colors  
5506 Mineral | 5507 Shadow | 5511 Moon Mist | 5515 Forest | 5516 Galaxy

## Why nora® rubber flooring?

### Product Benefits

#### Reduced Maintenance

Little more than water needed - no finishes, coatings or harsh chemicals necessary.

#### Quiet Acoustical Performance

Attenuate noise pollution.

#### Ergonomic Design

Add comfort underfoot, reducing foot and leg pain.

#### Durable Surface

Withstand extreme stress from heavy rolling loads and wheeled traffic.

#### Superior Slip Resistance

Help to create safer spaces.

#### Supports Infection Control

Disinfect thoroughly due to a dense, non-porous surface.

### Sustainability Verifications

#### Cradle to Cradle Certified® Silver

Certification of whether a product is safe, circular and responsibly made. Applies to nora 926 and 913 compound floor coverings and stair treads.

#### GREENGUARD Gold

All nora floor coverings & adhesives are certified for low VOC emissions.

#### Environmental Product Declaration (EPD)

A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified. Applies to nora 926 and 913 compound floor coverings and stair treads, and ESD and acoustic floor coverings.

#### Health Product Declaration (HPD)

A transparency tool for evaluating whether a product supports Green Chemistry. As part of our work on Health and Materials, Interface continuously reduces the environmental and health impacts of our products through elimination of materials of concern. Applies to nora 926 and 913 compound floor coverings and stair treads, and ESD floor coverings.

### Integrated System

nora and Interface cover every area of your building – all from a single source. Create harmonious, space-specific design with our system of soft and resilient floor coverings, including special floorings, stair treads and accessories.

### Outstanding Service

From design to post-installation, we have the experts to support your project at every step and can even be a valued resource for your organization's sustainability mission.
