## Opposites attract

When contrasting materials unite, something distinct and innovative is made. noraplan® unita™ combines solid granite and soft rubber for timeless, subdued style in a class of its own. Fine granite chips add fascinating visual depth and a touch of mineral shimmer to this high-quality rubber flooring — Unique like the stars in the night sky.

# Sparkling performance

noraplan unita has fine granite flecks that subtly reflect light, allowing the architecture and finishes in a space to shine. The design is deliberately refined and simple, and it is made to the highest standards of quality, durability and service for reduced maintenance and noise, comfort underfoot and performance that lasts for decades.

Rubber floor covering with a perfect combination of resilient rubber and randomly dispersed granite chips.

## Why nora® rubber flooring?

### Product Benefits

#### Reduced Maintenance

Little more than water needed - no finishes, coatings or harsh chemicals necessary.

#### Quiet Acoustical Performance

Attenuate noise pollution.

#### Ergonomic Design

Add comfort underfoot, reducing foot and leg pain.

#### Durable Surface

Withstand extreme stress from heavy rolling loads and wheeled traffic.

#### Superior Slip Resistance

Help to create safer spaces.

#### Supports Infection Control

Disinfect thoroughly due to a dense, non-porous surface.

### Sustainability Verifications

#### Cradle to Cradle Certified® Silver

Certification of whether a product is safe, circular and responsibly made. Applies to nora 926 and 913 compound floor coverings and stair treads.

#### GREENGUARD Gold

All nora floor coverings & adhesives are certified for low VOC emissions.

#### Environmental Product Declaration (EPD)

A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified. Applies to nora 926 and 913 compound floor coverings and stair treads, and ESD and acoustic floor coverings.

#### Health Product Declaration (HPD)

A transparency tool for evaluating whether a product supports Green Chemistry. As part of our work on Health and Materials, Interface continuously reduces the environmental and health impacts of our products through elimination of materials of concern. Applies to nora 926 and 913 compound floor coverings and stair treads, and ESD floor coverings.

### Integrated System

nora and Interface cover every area of your building – all from a single source. Create harmonious, space-specific design with our system of soft and resilient floor coverings, including special floorings, stair treads and accessories.

### Outstanding Service

From design to post-installation, we have the experts to support your project at every step and can even be a valued resource for your organization's sustainability mission.
